## New Funding Model for Training in WA

As you are aware, the Department of Training and Workforce Development has been developing an entitlement model for training under the national vocational education and training reform agenda.

This email is to direct you to further information on the model and on the way training will be subsidised and delivered in Western Australia.

Future Skills WA will commence on 1 January 2014.

Detail on Future Skills WA, including a number of Fact Sheets, can be found on the Department's website, [please click here](#).

This information covers such questions as:

- Why Future Skills WA, and what will it do?
- What does a guarantee of a training place mean?
- How are State training priorities determined?
- What are the State training priority qualifications?
- What are the training subsidies and fees under Future Skills WA?

If you have any questions on the new funding model, it is suggested that you contact your preferred Registered Training Organisation. If you don't have one, please contact the Financial Administrative & Professional Services Training Council.
